

**Tina Buchholtz**  
**Born Berlin, Germany**  
**Lives and works in Berlin, Germany**

Karin Weber Gallery artist Tina Buchholtz creates abstract artworks in acrylic on canvas using a unique sanding technique that reveals interesting colors, forms and textures.

Tina Buchholtz first mastered graphic design before focusing on her current medium of acrylic and mixed media. Her work is characterized by a time-intensive, almost meditative process which facilitates an inward and outward sense of order. This grounding frees the artist to develop themes that embrace the unpredictability of life, and our collective impulsiveness and spontaneity.
