Chonticha Kaiaroonsuth

Currently lives and works in Hong Kong

Ng Ching Kuen / Chonticha Kaiaroonsuth's dual Cantonese and Thai name reveals her varied identities. Growing up, she frequently found herself in a different cultural context, transition and detachment her norm, experiencing stories and her roots as a 'transmitter' rather than a subject. Her current paintings and writing focus on the dynamic relationships between things, integrating her reflections on daily experience. She hopes to find a place to settle down from the wandering landscapes.
